We have not heard from the debating society in this town for some time, yet we presume that it is in operation. Don't let it die young men. Set a time and debate some interesting subject before the public in the court house.

Dr. George Hann, who resided at Shelby City, Boyle county, died suddenly at his late residence Tuesday last week. The deceased was one of the best known physicians in the business section and was a very excellent man. He was about 73 years old and leaves a wife and quite a number of children. Mr. A. Hann, of Columbia, being one of the number.

Some parties passed through town Monday night, just from church we presume, riding a lively gal and hallooing "yip, yip, yip." It is a strange thing that some men do not know how to behave or if they do, have not the courage to do so. Howlaway does not excuse the behavior of brain but a little moral standing desirable to self-respecting people. A town Marshall should be elected and do some policing.

The company to build an electric line from Glasgow to Burkesville has completed its organization and election officers. The distance is forty miles and about one-half of the right of way has been secured. There have been several estimates of the cost of this line, but it is believed that it can be built for something less than one million dollars. Should it take that much it would probably be a paying investment in course of time.

A frightful runaway occurred at Milltown one day last week. Jimmie, a little son of Mr. J. R. Tuit, was up on horse back and for some cause the animal became excited and started in full speed. The boy was thrown from his saddle, his foot hanging in the stirrup, and as the horse proceeded he leaped, fence and several logs and finally Jimmie's foot was released and he fell to the ground, unhurt. Those who witnessed the sight expected the child to be killed.

Last week Thomas Ward and a Miss Hines, who live on upper Russell's creek, Green county, eloped to Tennessee and were married. The parents of the young lady were very much opposed to the union, and had kept a close watch on the girl for several months. The day she left home she entered the family room with a sack well-filled, telling her mother that it contained feathers, and if she had no objections, she would step over to the neighboring store and sell them. Consent was given and the girl walked out. She did not have feathers in the sack, but clothing, and after walking a few hundred yards she met her lover, who had a canvas bag ready to receive her. An attempt was made to secure Hines at Lebanon, but the girl being under the age, the couple pulled for Tennessee in that way. The lovers are married regardless of age.

We have heard much complaint of the condition of the pike between Columbia and Campbellville and as evidence of its bad condition the people of this town have been paying an extra toll. A tax was made to secure Hines at Lebanon, but the girl being under the age, the couple pulled for Tennessee in that way. The lovers are married regardless of age.

Miss Nellie Burdett, of Glasgow, a young lady who visited in Adams county last week, met with a very painful accident last week. She was out riding when her animal reared up and Miss Burdett, losing her balance, fell to the ground. The horse started to the side of her head, cutting a severe gash. The young lady is not seriously hurt.

The tobacco market was active last week. All grades of tobacco were sold and were taken at satisfactory figures. The indications are that both the Louisville and Cincinnati markets will be more active this spring than usual.

Upon the first page of the News is an interesting letter from Miss Mary Harris, a young lady well-known in this community. She recently visited her father, Mr. J. H. Harris, at the home of Jefferson and other places in the old District.

The Meeting.

The meeting conducted in the Methodist church in this town by Rev. W. H. Harney, in point of attendance too large for the church, for it is an overflow congregation at every service. The preacher indulged in what we term, "hot shot remarks," denouncing different forms of vice in plain English and virtually rebuke to the face of his hearers as if to say, thou art a guilty party, and then makes unusually strong appeals for reformation. Quite an interest is manifested and the probability of a great revival—a spiritual awakening of this town does not seem improbable.

The singing is unusually good and Mr. Robinson, who is with the Evangelist to assist him, has this part of the work. His voice is strong and clear and full of music. Go out to the meeting and hear a gifted man tell the "wonderful story of love" and the other to enchant you with the melodies that arouse the noble impulses that have slumbered so long within your breast.

Mr. W. L. Grady advertises his stock in this issue. His efforts to improve the grade of horse flesh in this section of the country is well known and appreciated by a large majority of our people. His horse—Jordan Peacock—has not only distinguished himself in the great show ring, but he has won as many blue ties as any horse in Southern Kentucky, but as a breeder he stands in the front ranks. His colts sell from \$100 to \$2,000. His breeding is superb and as an individual he is a model. Mr. Grady is a gentleman who will do you right and if you have any stock you wish to entrust to his care just send to him and you will find everything to come up correct.

In last week's issue we called attention to our large and well assorted stock of priors stationary and stated that we had 1000.00 sheets of letter and note paper, but the compositor made a slip and it read 10,000 sheets. The truth is the compositor has many knobs but in this case it is deserving for we have the goods. Our stock of linens and bonds will exceed 50,000 and we have a large stock of the best grade, color or quality of envelope used in this section can be secured at this office at fair prices. Give us your order and we will please you.

Messrs. M. Craven and W. F. Jeffries made a trip to Powersburg, Wayne Co. last week and made contract for the drilling of Well, No. 2, for the Columbia Oil Co. This well will be drilled a short distance from the first one and is to be drilled to a depth of 200 feet. Two other companies are now fixing to test that section with 2500 foot holes and if deep drilling proves profitable it is the intention of the Columbia Company to go to a paying depth, hence the starting of a large hole.

Mr. C. H. Murrell, the traveling representative of the News, had a thrilling experience last Friday when he was near Russell Springs and Jaceverson. He was en route to the latter place when suddenly a storm was on him and it came with such fury as to destroy fences, break down trees and he quickly used his horse for protection. He took refuge in a house expecting harm to come to his faithful steed but the blast was over in a few minutes and Spittal went forward.

Mr. W. S. Griffin left an order with us for advertising his store which will stand at Cave Valley. His stallion, Red Bird, is so well known in this section to need no commendation from us. He is a fine individual and his breeding superb, being an inbred Lexington. His colts are ample advertisements of his worth as a breeder. Mr. Griffin also has the C. M. Breeding park, one of the best in all the country. This stock may be seen on Mr. Griffin's farm near Cave Valley, at any time.

The examining trial of Joe Durall for the shooting of William Sharp several days ago, was held before Judge T. A. Murrell last Saturday and in the same trial the charge against Prof. Spencer was also taken up. There were a good number of witnesses and the trial consumed the larger part of the day. After a full investigation Judge Murrell dismissed the case against the accused which, evidently meets the approbation of those who heard the testimony.

Mr. J. O. Russell, of this city, is preparing at his own expense, to have the Presbyterian church repaired, and some other necessary work will be done. The material has been ordered and as soon as it arrives paper hangers will be put to work on the interior of the building will present a handsome appearance.

Miss Nellie Burdett, of Glasgow, a young lady who visited in Adams county last week, met with a very painful accident last week. She was out riding when her animal reared up and Miss Burdett, losing her balance, fell to the ground. The horse started to the side of her head, cutting a severe gash. The young lady is not seriously hurt.

The tobacco market was active last week. All grades of tobacco were sold and were taken at satisfactory figures. The indications are that both the Louisville and Cincinnati markets will be more active this spring than usual.

The following marriage license was issued during the month of February:

Last week the News man, seeking items of interest, took in the town, interviewing various parties, but no one had heard of anything worth mentioning. Finally he was told by a good business man that he did not know any news, had not heard anything and could not suggest anything of worth for the human race. Well, some people would find it a difficult matter to get good fresh news from such opportunities.

We understand that Mr. Fred Hancock, this place, has accepted a position to travel for a Cincinnati shoe house. He is a popular young man of good habits, and will doubtless build up a large trade. He will soon take the road and we cannot commend him to the merchants of the territory assigned him.

Monday was county court day and a good crowd was in town. Business in all lines was fairly good. Several horse and mule buyers were here but not many sales made. There were no mules offered for sale than have been offered on this market for a long while, but the buyers would not pay the prices asked, so the most of them were led back to their stables.

Mr. L. H. Cabell, who lives near Camp Knox, Green county, was in a critical condition last week, and his family and friends were very uneasy concerning him. He was taken very suddenly and was delirious for several days. At this writing his condition has slightly improved, though the danger line is not yet passed.

Mr. L. V. Hall has made a heating stove of galvanized iron which is now on the market. He is of the opinion that it will prove better in point of durability than the regular sheet iron. It never gets red hot, but is as strong as iron. It costs its galvanized color returns.

The sermon Monday night delivered by Rev. Mr. Harney on the attempt to destroy the Jewish church was one of interest, full of the force and strongly-voiced faith. We trust great good will come from his efforts to the people of this town.

For cold and disagreeable weather February was a corker. Let us hope that the back bone of Winter has been broken and that March will furnish sunnying days. Farmers are anxious to get their ground ready for corn.

Judge Rains issued warrants of arrest for Joe Vail, Gardolf Wheeler, Wallace Singleton and Virgil Sweeney, all of color, for disturbing the poultry tribe. All were arrested except one, who escaped. They were given an examining trial and bound over to Circuit Court under one hundred dollars a piece.

T. L. Davidson, of Columbia, was in Liberty last Sunday.

The Fiddlers contest, on Wednesday night, drew a large crowd to the Court House. Some of the best musicians of the fiddle and the bow were present and contested. The judges, Miss Florence Tanner and Messrs. John R. White and Sam Woods, gave the first prize to Mr. Thomas Edwards, of Casey Creek. Lewis brothers, of Parisville, were second. Mr. Ed. Edwards, of the county, with some splendid music after two dances had closed.

or mare traded or removed from the neighborhood. Jordan Peacock has proved himself to be one of the best breeders in Kentucky. His colts have all been sold at three years-old and over at prices from \$100 to \$2,000. As all the old ones sold, horse men are now buying them at two-years-old at fancy prices.
